#### **Emergency Operations Center (EOC)**

The Sarasota County Government Emergency Operations Center is a state-ofthe art facility that houses both the Emergency Management Division as well as the 911 Call Center for Sarasota County and County Contact Center.

# This was a LEED certified and designed to FEMA 361 standards.

This hardened structure is capable of withstanding a 253 mph wind load. The EOC also includes redundant utilities, two 1250 KW generators, and a 250' Communication tower.

Home / Know Your Zone

#### **Know Your Zone**

In order to know when to evacuate for hurricane surge flooding, you must KNOW YOUR ZONE!

The greatest killer of people during hurricanes is storm surge – the dome of water pushed ashore by powerful hurricane winds. Entire buildings can be moved, and can cause more damage than the winds of a hurricane itself. Florida is extremely vulnerable to surge flooding because of its coastal and low-lying geography.

Disaster Preparedness Maps Flood Zone Maps Know Your Zone

#### Attention - The Evacuation Level layer on this map has changed.

The Sarasota County map has been updated based on newly run storm surge models provided by the State of Florida through the Southwest Florida Regional Planning Council.

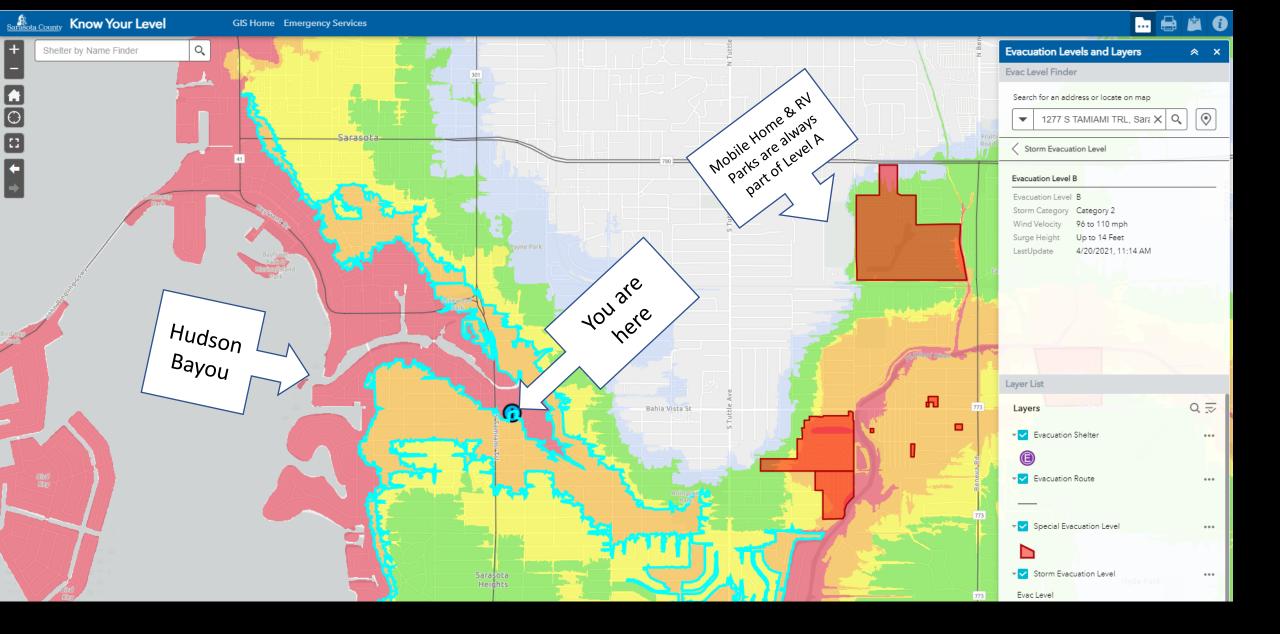

Although evacuation levels remain the same for most residents, please double-check your address to see if your property or address has been affected.

#### The first week is on you

Prepare to be self-sufficient for at least 7 days. Emergency responders may be delayed.

### Have a Disaster Kit - Stock up NOW!!!

- Change of clothes
- Bedding supplies
- Books, games
- Cell phone chargers
- Personal comfort items
- Have supplies to last at least <u>a week</u>
- Take prescription **bottles**
- What other items might be in your disaster kit?
- Masks
- Gloves
- Hand Sanitizer

# **Everyone Packs Their Own**

No one ever thinks a disaster will happen to them. Your best strategy in dealing with a disaster is to be as prepared as possible. You should be able to take care of yourself and your family for 72 hours. Use this checklist to stock a basic 72-hour kit and add items depending on your family's needs. Ideally, your kit should be stored in a waterproof and wheeled container. You may have to stay in your home without electricity or water, or you may have to evacuate your home for a period of time.

#### Food and water

- Two litres of water per person per day.
- Toiletries
- Cleaning supplies (hand sanitizer, dry shampoo, etc.).
- Food that doesn't require cooking and won't spoil, such as granola and protein bars, trail mix, dried fruit and canned tuna (remember to replace food and water once a year).

#### Equipment

- Manual can opener.
- Flashlight (wind-up or battery-operated) and batteries (replace batteries every year).
- Wind-up or battery-powered radio (replace batteries every year).
- Candles, lighter, waterproof/strike-anywhere matches.
- Pens and paper.
- Duct tape.
- Pocket knife.
- Cooking and eating utensils.
- Warm clothes and blankets or sleeping bags.
- Garbage bags.
- Whistle and flares (to attract attention).

- First aid kit.
- Toilet paper.
- Dish soap.
- Feminine supplies.

#### Special needs items

- Infant needs (diapers, formula, bottles, etc.).
- Prescription medicines.
- Extra pair of prescription glasses or contact lenses.
- Pet items (food, leash, muzzle, medication, etc.).

#### Personal documents and items

- A list of your emergency contacts (names and contact numbers).
- An extra set of house and car keys.
- Some cash in smaller bills.
- Copies of important documents like passports. birth certificates and insurance policies.

## 72 Hour Survival Kit

# Filling the tub & keeping the water safe

HOLDS UP TO 100 GALLONS

**BE PREPARED FOR NATURAL DISASTERS** 

# Why You Should Put A Coin In A Cup Of Frozen Water In Your Freezer

# **KEEP A PAPER TRAIL**

Keep important documents in a fireproof safe or box, and store a copy in a secure location away from your home or business.

- Proof of residence/ownership
- Birth and marriage certificates
- Passports
- Social Security cards
- Bank and credit card info.
- Wills, deeds, and copies of recent tax returns
- Stocks and bonds

- Copy of driver's license
- Special medical information
- Insurance policies
- Property inventories or photos and videos of your home or business
- Business tax license
- Business supply/vendor lists

# "The First Week is On You!"

# to be Hurricane Prepared Today!

repare to be self-sufficient for at least 72 hours – preferably up to a week Emergency response may be delayed after a disaster.

Be Prepared, Get It Together

f b 🔠

# "Get Hurricane Prepared Today!"

Decide now if you'll need to evacuate your home in the event of a hurricane.

Residents in low-lying areas, barrier islands and mobile homes should seek shelter when conditions warrant.

If your home was built after 2002, and you are not in an evacuation level, you may be more comfortable sheltering in place.

A 2005 University of Florida study concluded that homes built under the 2002 Florida Building Code sustained less damage on average than homes built between 1994 and 2001 under the Standard Building Code.

IF YOU'VE DETERMINED THAT YOUR HOME IS NOT SAFE TO RIDE OUT A STORM:

- Stay with a friend or leave the area
- Emergency management agencies recommend you arrange to stay at a "host home" with shutters that is outside the evacuation level.
- A host home is the home of a friend or family member who has agreed to provide temporary shelter for you.

# Plan your Evacuation Route

- Hurricanes can strengthen quickly
- Storm surge flooding can close roads well before the storm makes landfall
- Have a least <u>2</u> ways that you can evacuate

www.ready.gov/evacuating-yourself-and-your-family

Weather-Ready Nation National Oceanic and Atmospheric Administration

National Weather Service weather.gov/hurricanesafety

## Hurricane Evacuation Centers

## Should be considered as a last resort

# Each person gets only 20 Square Feet of space in the evacuation center

## Bridge Tropical Storm Lockdown Procedure

When the Bridge Superintendent determines that severe weather is imminent (sustained winds of 39 mph or greater, expected within an 8 hour time period) and moveable bridges need to be locked-down, they confer with Road & Bridge Manager, General Manager and Emergency Operations staff.

## Non-Response of First Responders Due to Sustained Tropical Storm Force Winds

- Law Enforcement Sustained winds of 55 mph+
- EMS and Fire Sustained winds of 45 mph +
- Those who call 911 during the hurricane-force will still be able to speak to a call taker and receive guidance over the phone.
- The calls will be prioritized, and emergency officials will respond to calls based on need once they are able to get back on the streets.

#### Irma Tallahassee, FL 2017

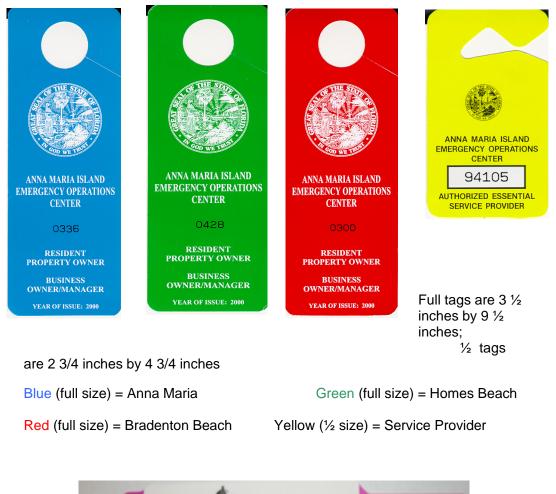

POLICE

Island Re-entry Tags (For law enforcement purposes)

wrist bands (color may vary) = Longboat Key

## **Valid Credentials for Re-Entry**

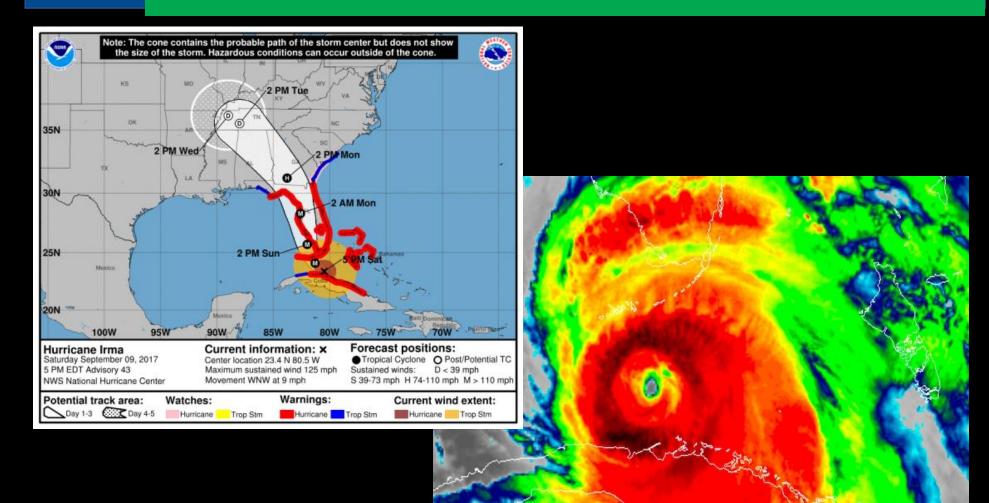

Shall include, but are not limited to the following: Drivers License Voter Identification Card Property Tax Bill Utilities/Phone Bill Employee ID Card/Letter from Business on Company letterhead Pay Stubs From an Island Business Rental or Lease agreement

When cleared, vehicles and pedestrians will proceed along the designated re-entry route for access to the evacuated area. Vehicles and pedestrians not having proper identification shall be denied clearance and rerouted from the area.

#### Transportation Plan (Hurricane Evacuation Centers)

### If you cannot drive to an evacuation center

Sarasota County will provide bus transportation for you and your pets (along with a limited amount of supplies) to and from a general population evacuation center. This program is activated only when Sarasota County has a declared county emergency, an activation is ordered, and evacuation centers are

ordered, and evacuation centers are opened. Transportation will be offered at designated rally points throughout the county. RALLY POINTS SOUTH COUNTY

#### Sarasota County

#### Transportation to Emergency Evacuation Centers

#### **Request for Transportation to a Rally Point**

When a hurricane or other disaster requires mandatory evacuation, designated Rally Points will be established for citizens needing transportation to and from an emergency evacuation center. It is recommended that you drive, use friends, family, or neighbors to transport you to an emergency evacuation center if possible.

This program is activated only when Sarasota County has a declared county emergency, an evacuation is ordered, and evacuation centers are opened.

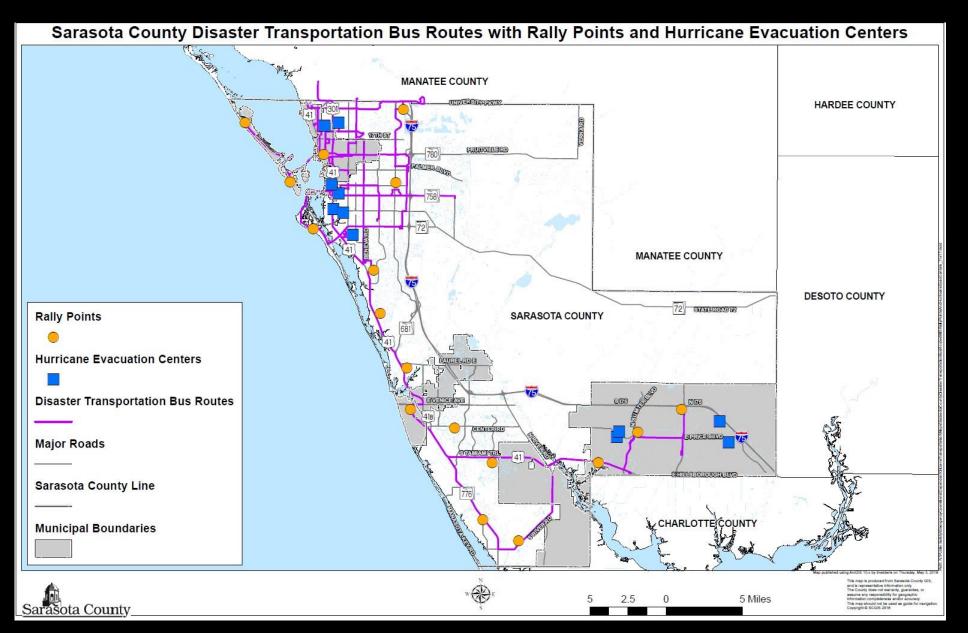

Pickup times may be delayed due to increased numbers of riders.

Evacuees should keep in mind there is limited space on the bus and in the evacuation center.Please limit your three days' worth of emergency supplies to one suitcase/bag per evacuee/rider.Transportation for you and your pet (dogs and cats only) to the emergency evacuation centers requires your pet to be in a crate or carrier.You must bring all necessary supplies to care for your pet during the evacuation.

If you need transportation to a Rally Point, please complete the form below.Shuttles will move evacuees from designated Rally Points to opened emergency evacuation centers.

Powered by Formstack Create your own form >

### All Sarasota County Hurricane Evacuation Centers Allow Pets (Dogs & Cats)

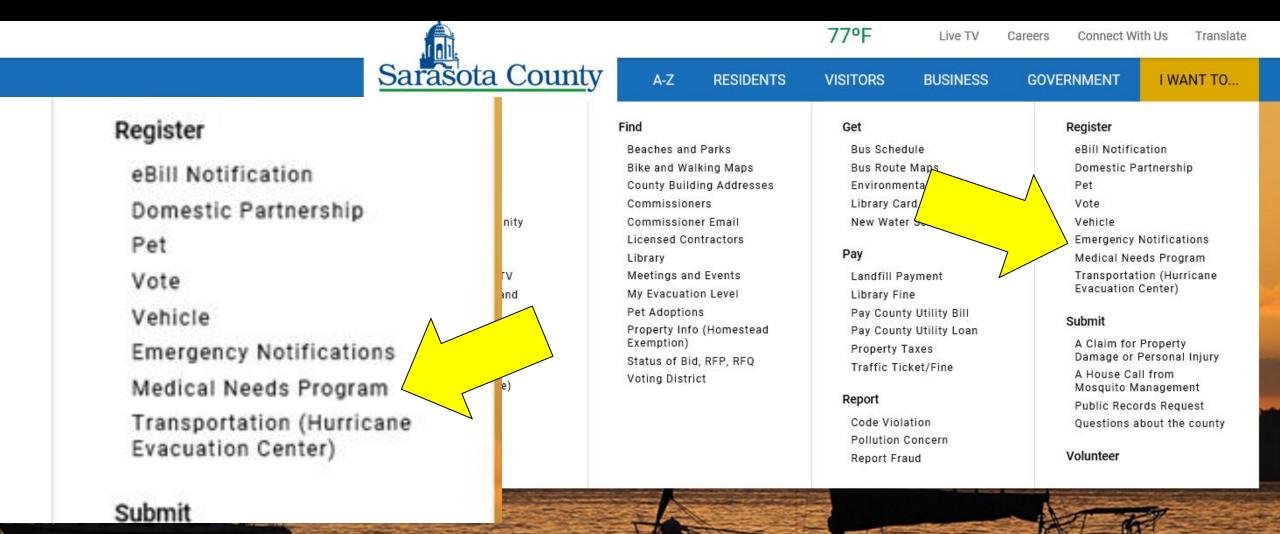

# Medical Needs Program (PSN)

# Medical Needs Program (PSN)

# Medical Needs Program (PSN)

#### **HOW TO APPLY**

Submit an application to Sarasota County Emergency Management. Two ways to submit applications:

- 1. Complete the Medically-Dependent Person online application form.
- Complete a paper application and fax or mail it to emergency management. (NOTE: this method may delay the processing of your application. Here is the <u>Medically-Dependent Person Application</u>.

Mail to:

Emergency Services 6050 Porter Way Sarasota, FL 34232

FAX to: (941) 861-5501

If you are having difficulties viewing the document in your current browser, please try using Explorer.

#### TRANSPORTATION

County provided transportation to the evacuation center is limited to MDP, caregiver, spouse (if not caregiver) and underage children only. Registered MDPs will be contacted 24-48 hrs prior to the arrival of high winds to ask if transportation is needed.

If you need transportation to evacuate, it is very important to make your evacuation decision when you are called. Transportation is not guaranteed if requested at a later time and may be at your own expense.

SPECIAL NEEDS (UPON PRIOR REGISTRATION): 60 square feet for themselves, one caregiver, and all necessary belongings.

### When is it safe to go back?

#### • Red, yellow, green conditions.

#### CURRENT LEVEL - RED

#### RED

- Unsafe.
- Emergency services may not be available.
- Extensive damage limiting travel.
- Access limited to residents and business ov Proper ID required. Enter at your own risk.

- YELLOW
- Power out, trees and power lines down. Traffic lights may be out.
- Potential damage to drinking and wastewa
- Safety precautions required.
- Limit travel to essential needs.

#### CURRENT LEVEL — GREEN

#### GREEN

- No limiting factors.
- Safe for the general public.
- All clear.

# After the Storm: CLEANING UP

#### Don't push yourself

Straining the body can lead to heart attacks and other serious issues. Perform cleanups slowly, taking lots of breaks.

## Be careful with chainsaws

Wear protective gear. Keep a safe distance from bystanders. Avoid contact with fallen power lines to prevent electric shock.

#### Stay safe in the heat

Stay hydrated. Wear light, loose-fitting clothing. Take breaks in shaded areas or in air conditioning. Cleanup during cooler hours if possible.

пояя

weather.gov

# After the Storm: HAZARDS REMAIN

### Be careful near damaged buildings

Do not enter a damaged building until local authorities say it's safe. Leave your home if there's shifting or unusual noises. If you smell gas, get outdoors immediately and call 911.

### Watch out for power lines

Stay far away from damaged power lines, whether they've fallen to the ground or are dangling overhead.

## **EXAMPLE 7** Don't walk or drive through floodwaters

They can contain harmful bacteria, chemicals, sharp objects, live wires and reptiles/other animals. It only takes 12 inches of fast-moving water to sweep a car away.

NOAA

weather.gov

Fire ants form floating "rafts" by locking their legs together when their mounds are flooded. These rafts contain the entire colony - worker ants, eggs, larvae, pupae, winged males and females and queen ants - and float until they come into contact with something to adhere to. Don't let that something be you!

# After the Storm: **POWER OUTAGE**

## Use flashlights, not candles

This will avoid risk of fire. Turn on flashlights before entering buildings, to avoid producing a spark that could ignite leaking gas.

### Practice portable generator safety

Use outdoors, at least 20 feet away from doors/windows/garages to avoid carbon monoxide poisoning. Properly ground, and \_\_\_\_\_ don't overload.

#### Be careful with food and water

Food in the fridge can start to spoil after as little as 4 hours. Drink bottled/boiled water only, as purification systems may not be working. Use camp stoves/grills outdoors only.

NOAF

#### Sarasota County launches new 311Connect service to enhance customer service

SARASOTA COUNTY - Sarasota County Government has launched a new customer service initiative called 311Connect, that will help the community access all of the county's services in a variety of convenient ways.

The new service allows users submit requests for service or information via web, a mobile app and phone options.

311Connect provides options for users including:

- What type of service they need so the request can be quickly routed to the appropriate county staff.
- Attach photos and specify the location where service is needed.
- Receive an estimated date by which the request will be completed, along with a tracking number and emailed status updates.
- Provide feedback about their customer service experience.
- The system will also open a library of information about county services to the community for those who prefer self-service, and in-person service is always available at county facilities.
- The Sarasota County Contact Center can also be reached directly by calling 311.

- Visit: https://sarasotacountyfl.qscend.com/311
- Mobile App: Use the 311Connect mobile app for <u>iOS</u> or <u>Android</u> devices.
